THE GABR FELLOWSHIP

A fully-funded leadership program in Egypt & the US

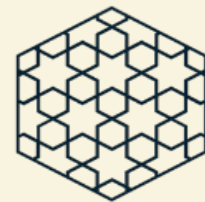

Between 2013 and 2018, over 120 professional leaders from Egypt & the US joined the program. Are you next?

The Gabr Fellowship, the flagship program of the *East-West: The Art of Dialogue* Initiative, promotes the mutual understanding between the East and West by instigating dialogue and the exchange of ideas between young emerging leaders from Egypt and the United States. Each year the Gabr Fellowship sends 10 Americans and 10 Egyptians on a unique journey to experience each other's home turfs. Together, they explore the future of a bright bilateral relationship. Fellows represent various industries and work in the fields of the arts, science, law, media, and entrepreneurship. Men and women between the ages of 24 and 35 with passion for cross-cultural understanding are encouraged to apply.

Orientalist art was one of the earliest examples of building bridges between East & West

A Street Scene, Damascus , Gustav Bauernfeind , The Shafik Gabr Collection

“The East-West: The Art of Dialogue initiative sprung from the conviction that non-governmental institutions can affect real change and that each citizen must play a role in building bridges towards sustainable peace and cross-cultural understanding.”
